Feedback: Themes

What were the most useful aspects of the support?

Feedback: Themes- 3 months since initial support

Where have schools seen the impact?

Feedback- What schools have to say...

Keily was so supportive and helpful. She had practical tips and advice and also followed up with useful resources the whole school can use. She was fantastic!

Really supportive and helpful. Have recommended to other schools to contact outreach for your services.

Katrina was an absolute star! She gave expert advice that I have already started to put in place.

The support was excellent. Marie helped us so much. We cannot believe the impact the support has had on both our pupils and staff involved. A truly valuable resource which supports schools with the practical "how to..." not just theory based training.

Tracy's advice and support has been fantastic. She gave practical strategies which can be used straight away and sent over resources as promised.

Feedback- Key words in feedback...

Feedback- What the Quadrant Outreach Leads have to say...

- ▶ Being able to share out expertise from our experience in special schools, to empower and upskill staff is key to our bespoke service and success to date.
- ▶ The schools have welcomed our support. It is fantastic to return to schools, see the progress and the impact it is having on pupil outcomes.
- ▶ Our ESSET Outreach service is a valuable resource that supports schools with the practical 'how to' which leaves staff with the confidence to support pupils with complex needs.
- ▶ By creating a simple referral and triage process, we have been able to respond quickly and get the appropriate support into the schools.
- ▶ We are supporting schools to reintegrate pupils who are on reduced timetables or previously suspended.
- ▶ We are proud that as a team of four we have demonstrated the impact our service has had across the whole of Essex to improve SEND pupil outcomes in under two terms. This is a highly cost-effective service.
